Subject: RE: PWS Marked Streams. Done?

OK, I got most of it worked out. I think.

I still came across about 32 entries which I didn't have in the AWC database. Most of these (highlighted in blue) I believe were due to stat area errors in the AWC numbers you submitted. I took a shot at correcting these and what I believe are the correct numbers are contained in the column CORRECTED AWC. Using this corrected data I was able to come up with the latitude, longitude and legal description data for all but 2 entries (highlighted in green). One is an error on our part, stream 226-20-16132 appears in the atlas but for some reason is not entered in the AWC database. The other entry, stream 222-10-12000 does not appear in the catalog or atlas. Check the number again, it may need to be 222-10-12010, 12020, 12030, or other all of these appear on the Seward D-1 quad.

I included notes regarding these problems and changes in the comment column.

Johnson.xls

This is what I dug up on English Creek or stream 228-60-18030.

English Creek appears in the 1968 version of the AWC on a map as stream 803. In the location in English Bay that you indicated.

During the 1975 revision CFMD went to a numerical numbering system with latitude and longitude descriptions and no maps. In this version stream 228-60-803 appears this time with no stream name and with the latitude and longitude and legal description consistent with what is in the current AWC. This is consistent with being the same stream as many of the stream locations for the 1982 version(which is the basis of our current system) were taken directly from the earlier 1975 version plus other documents etc.

Bottom line is that they are or should be the same stream. It was probably a location error during the 1975 conversion. What I will probably do is move the location of stream 228-60-18030 to the English Creek site. To support this could you send me any survey information you have on English Creek or 18030 as far back as possible? Thanks.

Stream Number	Latitude	Longitude	Legal Description	AWC year
228-60-803	60 17 00	146 41 15	18S 8W Sect 30	1975
228-60-18030	60 17 02	146 41 14	18S 8W Sect 30	1996

Subject: PWS Marked Streams

Ed, Stream in English Bay is English Creek, too simple to remember. Attached file is as we discussed. Thx
